Kód publikácie: 30321

Price indices in foreign trade are compiled on the basis of selected representatives covering chapters of the Harmonised System. Indices are constructed separately for total imports and exports for the world as a whole, for several reference periods and are compiled by sections and chapters of the Harmonised System and by divisions of the Statistical classification of products by activity (CPA version 2.1).

The publication is not included in the Catalogue of Publications for year 2022. Monthly price indices in foreign trade will be published in the [DATAcube database](#) of the Statistical Office of the SR.
